

6344 Monterey Drive

A great opportunity to own a 7 room updated ranch in one of Affton's most convenient locations! Mainly brick with some vinyl exterior, this sharp property boasts a nicely finished basement with additional rooms, a 2nd full bath and the possibility of an extra bedroom in the lower level.

The updated kitchen, carpeting, windows, systems and generous size rooms (main level is 1,219 sqft) makes this home an excellent choice.

You are sure to enjoy the large deck, level fenced-in backyard with a versatile storage building and the quiet "family-friendly" cul-de-sac non-thru street with mature trees in the front yard. These features make this choice a no-brainer. The custom oak kitchen also has a newer dishwasher. The A/C and attic fan are as new as 2005. Newer vinyl tilt-windows and front door are a big help to the utility bill. The 6 year roof should provide many years of service.

Nearly 500 sqft in the nicely finished basement that offers a huge recreation room, office, playroom, 2nd full bath, cedar-lined closet, and lots of storage space.
